

PET double-sided tape (anti-cat scratch tape)	
Introduction	PET double-sided tape (anti-cat scratch tape) is a PET double-sided tape made of PET as a base material, evenly coated with high-performance acrylate pressure-sensitive adhesive on both sides, and then compounded with release paper. Transparent and virtually invisible, non-toxic and pet-friendly, leaves no residue after removal, easy to cut, apply and tear off, durable and safe for most surfaces (wood, fabric, glass, goldinquer).
Application	Main sofa armrests and backrests, door frames and corners, carpets and rugs, curtains, wooden furniture, walls and baseboards.
Property	
Product Code	P3200-20AS
Technical Parameters	
color	translucent
Type of glue	Acrylate
Base material	PET
Release material	Blank release liner
Total Thickness [mm]	0.200±0.005
Peel Strength (180°) [N/24mm]	≥16
Static shear force (24mm*24mm) [min]	≥30
Initial adhesion (initial stickiness) (14# steel ball) [mm]	≤100
Temperature resistance	Use at room temperature
Storage and shelf life	It is recommended to store in a clean and dry place, away from direct sunlight to prevent damage to the packaging, and to avoid storing with volatile solvents. Store at 25±5° C and humidity at 50±5%.
