	Fiber double-sided tape is a reinforced two-way fiber double-sided tape made of glassine paper glass fiber as the base material and coated with hot-melt pressure-sensitive adhesive, which has high adhesive strength for various pasted objects.
Application	It is suitable for laminating floor sound insulation layers, rubber products, foams, textiles, non-woven fabrics, leather, etc., pasting sealing strips for furniture and construction, and laminating difficult-to-stick materials

Property

Product Code	Color	Total Thickness [um]	Backing	Adhesive	Initial Tack [mm]	180° Peel Strength [N/inch]	Temperature resistance [℃]
P1214D	Transparent	140	Glassine paper fiberglass	Hot Melt	≤100	30-40	(-10 [~] 60)
P1220D	Transparent	200-220	Glassine paper fiberglass	Hot Melt	≤100	45	(-10 [~] 60)
P1222	Transparent	220	Glassine paper fiberglass	Hot Melt	≤100	22-25	(-10 [~] 60)
